BY HANNAH DALE

USA SPRING/SUMMER 2026 BROCHURE

## A Message From Hannah...

We are thrilled to introduce our new collections for Spring/Summer 2026. Our 'discovering nature' range features brand new artwork and includes some beautiful new Stationery - we all love the pocket-sized spiral bound notebooks. We have been asked so many times for a rucksack style bag and we have worked hard to get the design of this new addition just right - practical and stylish!

Elliott joins our plush family and he has been a favourite here at Wrendale HQ - we hope you love him as much as we do.

As always, there is plenty more to discover - enjoy browsing and as always, please let us know what you think!

Hannah, Jack  
and the Wrendale  
Team

## SUSTAINABILITY

As part of our commitment to sustainability, you will notice that we are **eliminating single use plastic packaging** from our cards, stationery and giftware going forward. Please bear with us as we phase out the older types of packaging in favour of newer and more **sustainable** methods that will still ensure that our products arrive to you in perfect condition.

## B CORP CERTIFIED

We are thrilled to announce that we are now B Corp certified, which means we are using business as a force for good. Being B Corp certified means we meet the high standards for social and environmental impact and aim to continually improve.

## THE WRENDALE EXPERIENCE

*"Our experience of supplying wrendale has been very positive. The staff are always helpful and very efficient, we love the product and are proud to have it in our store."*

# BEHIND *the Scenes...*

*with Vicky our Product Design Manager*

At Wrendale, there's always plenty happening behind the scenes as Hannah's paintbrushes bring new designs to life and our Product team work busily to develop new collections. We caught up with Vicky our Product Design Manager, to hear her thoughts on this exciting launch and beyond, giving you an insider look at life at Wrendale – and the care and dedication that goes into each and every product.

*Were there any products that challenged you this season?*

Our new backpack took a few different directions before we arrived at the final design. A Wrendale backpack could be interpreted in a few different ways – but it was important that we made this as practical as possible. We made sure it would be able to fit essentials like a laptop and an A4 journal and had handy pockets too. We even tested how much weight it would be able to hold so we knew it would meet our high standards. When developing the bag we found it useful to gain customer feedback; conducting a poll on social media asking followers to choose either a patterned design on the pocket or a larger single illustration. The larger illustration was the clear winner so we moved forward with that concept.

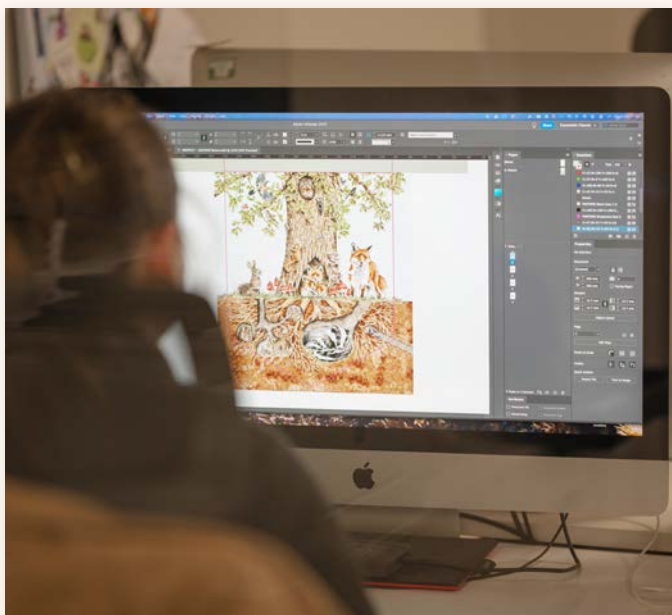

*What product are you most looking forward to being released?*

There are lots of lovely new products launching, but my favorite would have to be Elliott, the friendly frog plush. I love designing the plush with Hannah because we have freedom to interpret her artwork into 3D plush form and creativity in how we represent her brush strokes into various fabrics. An interesting fact is that Elliott is named after my son. He has a love for all animals but whenever we're out on a walk he loves to interact with caterpillars, snails and frogs!

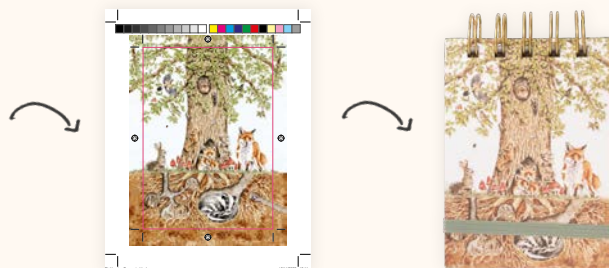

*Elliott*

*Is there a particular range you are proud of?* I really love the new Discovering Nature range. There are some great products in the range, suitable for adults and children alike and I know they'll be great for gifting. The artwork takes on a different style – much more scenic and so incredibly detailed – I spot a new part of the design each time I look! Referencing different habitats of British wildlife in this collection makes it so unique.

*Do you have a must-have purchase from this launch?*

Socks! My husband loves his Wrendale socks, and I have several pairs too! The new designs are always favorites in the office and the new colorways make them really special. I am still blown away by the level of detail we can achieve in the sock patterns and how much they look like Hannah's artwork. The new men's and women's socks should prove to be very popular.

*Can you share anything about the next launch?* We work quite far in advance, often on multiple products and launches, but there is always so much exciting development going on behind the scenes. We're already making the finishing touches to our July 2026 launch! We have been looking at new mediums for Hannah's artwork, and those with a keen eye will have seen a little while ago on our socials we shared that Hannah had been experimenting with clay sculpting. We love how Hannah's artwork has translated into this form – there is no end to her talent! Wrendale collector's figurines coming soon!

# Personal Organizers

This fantastic range of personal organizers are packed with useful content to organise any aspect of life. Divided into several sections, the organiser has pages for a monthly planner, weekly planner, meal planning, shopping lists, budgets, to do lists, notes, contacts and passwords. With a textured surface, the organiser can be secured shut with the wren stud fastening. The individual pages can be used and moved around with the six-ring loose-leaf binder in a beautiful, brushed brass finish. The striped interior canvas lining contains space for cards and a pocket for notes or receipts.

The planners are left blank so dates can be filled in and used any year. Re-fill pages are also available so the organizer cover can be re-used. Made from textured vegan leather. 6 x 7 x 2 inches. Sold in multiples of three. RRP \$35.00, trade price \$17.50.

# A Wilding Year

Written and illustrated by Hannah, “A Wilding Year” offers a beautifully visual and insightful glimpse into the world of rewilding. This book takes readers through a year on Hannah’s farm in rural Lincolnshire, where she and her husband Jack have undertaken an ambitious rewilding project to return the land to nature and increase the number of species their land is able to support, bringing back species like skylarks, meadow pipits, polecats, and more.

With stunning illustrations capturing the wildlife and landscapes, “A Wilding Year” is both a journal and a sketchbook, in which Hannah keeps a visual record of the incredible variety of species she finds on the farm. All royalties from the book will support ongoing nature recovery efforts on the farm, making the book a thoughtful gift for nature lovers.

5.6 x 7 inches. Sold in multiples of six. RRP \$20.00, trade price \$10.00.

A Wilding Year  
BOOK010

*“A beautiful book that’s written from the heart, an absolute must read for any nature lover.”*

– Hannah Stiffall,  
Springwatch Presenter  
and Author of Wild Treasures

*‘Hannah Dale tells the beautiful, heartening and quietly courageous story of rewilding her family farm. It honestly reveals the opposition she has faced but also the support, and the joy of witnessing the wild world burst back into life. Most of all, it powerfully shows nature’s own enthusiasm for rewilding!’*

– Patrick Barkham,  
Natural History Writer for The Guardian

# Wild Wrendale

## *About Wild Wrendale...*

In 2019 Jack and I made the decision to cease commercial food production on our arable farm in Lincolnshire. The land is low lying, standing wet for much of the winter and baking hard in the summer. Despite our best efforts we struggled to farm profitably and felt that the unproductive soils could be put to better use for the benefit of nature.

## *Our vision*

To allow nature to return to our 340 acre farm in Lincolnshire, creating habitats by restoring processes to the point that nature will be able to take care of itself. We aim to create a haven for native flora and fauna while providing a space for people to reconnect with nature.

## *What is rewilding?*

Rewilding is defined as the restoration of ecosystems to the point where nature is allowed to take care of itself. Rewilding seeks to reinstate natural processes and, where appropriate, missing species – allowing them to shape the landscape and the habitats within.

## *Why do we need rewilding?*

The most recent 'State of Nature' report found that nature is continuing to decline in the UK. It found that one in six species is at risk of extinction. 43% of bird species, 31% of amphibians and reptiles and 28% of fungi and lichen are in decline. Working alongside traditional conservation, rewilding has already shown some incredible results restoring ecosystems and supporting species that are in decline across the country.

## *Spread the word*

Since all of Hannah's work is inspired by the natural world, it feels very fitting for the success of Wrendale to enable Hannah and Jack to give back in this way. By shopping Wrendale, you are supporting a family-run business that is on a mission to support nature and we'd love for your customers to understand how their support makes an impact too...
