# Our Story

The English Soap Company's story began in 2000, when founders Bob & Juliet discovered a number of vintage soap moulds lying disused in a machinery workshop on a farm in Kent. Bob & Juliet spent many years perfecting the art of soap making. As the business grew Bob & Juliet moved their soap operation out of the kitchen and onto a local farm site in beautiful Waldron, East Sussex. The English Soap Company still makes all of their products on the farm site in the heart of the Sussex countryside.

# Over 25 Years of Soap Making

In 2025, our parent company, the family-run soap manufacturer behind The English Soap Company, proudly celebrated 25 years of soap making in the heart of the Sussex countryside. Established in 2000 with a vision to create beautifully packaged, high-quality soaps inspired by nature, we've remained dedicated to crafting luxury soaps and toiletries made in England.

What began as a small family venture with a passion for traditional soap making has grown into a thriving business, while staying true to our core values of quality, sustainability, and authenticity. Today, our team continues to produce every bar of soap, hand wash, candle, and more at our Sussex premises, combining the finest ingredients with elegant packaging to create gifts that are a joy to use and to give.

From our very first bars to the wide-ranging collections we offer today, we've always believed that soap making is both a craft and an art. Our soaps are made using vegetable oils, blended with fragrances from expert perfumers, and wrapped in recyclable paper featuring bespoke illustrations. Every bar is produced in-house, upholding exceptional standards and a true expression of British craftsmanship that we have proudly maintained for over two decades.
